Dear Industry Partner,

Thank you for your interest in supporting the 2027 International Oil Spill Conference (IOSC).

For more than five decades, IOSC has been the leading global forum for advancing oil spill prevention, preparedness, response and restoration. Held in the United States every three years, IOSC brings together professionals from industry, government, academia and the nonprofit community to exchange knowledge, share expertise and shape the future of the global oil spill community.

As the challenges facing our industry become increasingly complex, IOSC 2027 will focus on managing complexity and advancing capability—from artificial intelligence and emerging environmental pollutants to cybersecurity threats, severe weather and aging infrastructure. Together, we will explore how groundbreaking technologies and innovative strategies can strengthen our capabilities while preserving the proven practices and expertise of the past.

IOSC 2024 welcomed approximately 1,200 attendees from more than 50 countries, including industry, government and academia. With similar attendance expected in 2027, IOSC connects sponsors and exhibitors with the technical experts, leaders and decision-makers shaping the future of our industry.

For 2027, we have enhanced sponsorship and exhibition opportunities, making it easier for organizations to engage attendees, showcase innovations and build meaningful relationships.

We invite you to review the sponsorship and exhibitor opportunities in this prospectus and join us in Savannah for IOSC 2027. Your support helps us honor the best practices of the past while advancing the technologies, strategies and capabilities needed for the future.

We look forward to welcoming you to Savannah.

Sincerely,
2027 IOSC Executive Committee

IOSC Audience at a Glance

GLOBAL REACH

~1,200

attendees

50+

countries represented

650+

companies represented
